

Employment Assistance Services

Everyone deserves a second chance.

Employment Assistance Services will help open doors back into the workplace for the unemployed worker and allow them to contribute positively both to the nation's economic recovery and society as a whole.

We provide employment education training, and job placement opportunities for people with barriers to employment. Our goal is to improve the lives of individuals, families and communities.

One of the most important components for the unemployed and the underemployed worker is helping them prepare for and obtain meaningful employment and make a positive impact within their communities.

Job Readiness and Life Skills

Employment Assistance Services envisions a world in which every person has the opportunity to achieve his/her fullest potential and participate in and contribute to all aspects of life.

The Job Readiness Curriculum features 12 modernized modules that are tools to help recently unemployed workers find and keep employment. The curriculum offers a comprehensive approach to successful training, employment, and improved quality of life for the people we serve.

Each module is designed to stand alone or to be integrated into a larger career development process.

**People of Faith.
Helping People in Need.**
